

DelDOT - Development Coordination EMAIL-BLAST

Subject:

Updated Auxiliary Lane Sheet & New Checklists

Effective Date:

December 14, 2020

Notice

Development Coordination wants to inform you of the following update/changes:

1. The [Auxiliary Lane Worksheet](#) to meet the current warrant criteria of the Traffic Pattern Group K and D factors as provided in the [DelDOT's 2019 Traffic Summary Report](#) and referenced in Section 5.2.9.3. A minor discrepancy within a formula was resolved without change to the current warrants.
2. Checklists – Two new Checklist have been created by DOTS Traffic Section to provide guidance when submitting Traffic Signal/Lighting/ITMS plans for review:
 - a) [Signal Design Checklist](#)
 - b) [Lighting Design Checklist](#)

Utilizing these checklists during the design process will assist in ensuring all required items, applicable to the project, are provided when submitting plans and will help lessen the likely hood of the plans being declined and delaying the Plan Review Approval Process.

If you have any questions, please feel free to contact the Development Coordination Section at 302.760.2266.

**All forms have been updated and/or added to our Development Coordination website.*
