J. and J. Webb Property

Dwelling. This mid-twentieth-century one-and-one-half-story, side-gable vernacular cottage (built ca. 1950-51) is the second of three similar homes built on adjoining lots along what is now SR 1. Like its neighbor to the north, it has undergone considerable alteration. It features an asphalt shingle roof with cross-gable and shed dormers, aluminum siding and trim, aluminum replacement windows with fixed shutters, and a concrete block foundation. On the five-bay asymmetrical façade (eastern elevation) are the main entrance, which is flanked by small double-hung windows; a tripartite replacement picture window made up of three six-over-six sash windows of equal width; and a similar two-part window on the enclosed porch to the north. The brick chimney, once on the exterior, is now enclosed on the first story within that same porch. Although this house is currently vacant, it is in reasonably good repair. It is not, however, in any way outstanding.

Garage. Behind the house and to its south sits a large, hipped-roof, two-car frame garage built ca. 1960. It has a concrete block foundation on a poured concrete slab, an asphalt shingle roof with a small cupola, and vinyl siding. There are two overhead garage doors on the façade (eastern elevation), matching pairs of six-over-six replacement windows with fixed shutters on the northern and southern elevations, and a pedestrian entrance on the northern corner of the rear (western) elevation.

Historical Background. The J. and J. Webb property located near Frederica, Delaware dates from ca. 1950-51. In December 1911, William Townsend conveyed the property to Jester A. Gray through the Orphans Court of Kent County (KCDB R2: 300). On July 20, 1916, Jester A. and Sallie B. Gray sold the property containing 85.0 acres along with the "...farm, tract, piece or parcel of land...and all singular buildings and improvements" to Liston H. Webb for \$8,566.88 (KCDB A11: 177). On November 3, 1951, Liston H. and Katherine L. Webb conveyed a small part of the property to Jeanette H. and James C. Webb, the trustee of the Liston H. Webb estate (KCDB L19: 335).

National Register Evaluation. The J. and J. Webb Property on Bay Road is recommended not eligible for listing in the National Register of Historic Places because it does not meet the eligibility criteria established by the National Park Service (NPS 1997). It lacks most of the typical or salient qualities to be considered a good example of a mid-twentieth-century vernacular cottage. The resource is an example of an altered property within the SR 1 Interchange study area. The resource retains integrity of location and setting, but lacks integrity of design, materials, workmanship, association, and feeling, and does not convey historical or architectural significance.

Property-specific and documentary research of the area in general did not reveal any associations between this property and significant events or trends. The property is recommended not eligible for listing in the National Register under Criterion A for this reason. Historic research failed to link this property with significant individuals; therefore, the property is recommended not eligible for listing under Criterion B. This property does not display the distinctive characteristics of a type, style, or method of construction, nor does it represent the work of a master or possess

high artistic value; therefore, it is recommended not eligible under Criterion C. Archaeological investigations have not yet been conducted on this property; therefore, the resource's eligibility under Criterion D (potential to yield information important to history or prehistory) cannot be assessed at this time.
