

FEDERAL LANDS ACCESS PROGRAM - DELAWARE

Program Goals

- Call for projects will be for 2 years (FY13 and FY14) with a planned follow up Call for Projects for 4+ years pending evaluation of applications received.
- “Shovel Ready” projects will be given strong preference for final Programming Decisions Committee (PDC) ranking.
- Projects that have prior public dollar investments will be considered ahead of new project proposals.
- Program size will be evaluated after applications are received.
- Funds can be used for pedestrian access improvements, or utility relocation on access roads.
- The initial call for projects will prefer projects that are National Environmental Policy Act (NEPA) compliant and on existing State Transportation Improvement Program (STIP).
- If there are multiple applications serving one or more Federal Land Management Agency (FLMA) units in the state, then the Regional FLMA will be asked to provide their prioritized project listing at the closing of the call for projects.
