RE: Choptank Road Improvements - Bunker Hill Road to Bethel Church Road, Cultural Resource Management Summary

Dear Mr. Griffith:

The Delaware Department of Transportation (DelDOT) on behalf of the Federal Highway Administration (FHWA) is pleased to submit the Management Summary Report regarding architectural and archaeological resource survey for the above-mentioned project. The summary report reflects a resource evaluation update of known or potential resources within the project area. In the future, this report will assist in the determination and eligibility status of properties and further filed work within the Area of Potential Effect.

This cultural resource summary report for early identification and evaluation continues, but does not complete, the Section 106 process under 36 CFR 800.4.

Please review the information our Department is providing. Although no determinations or assessments are conclusive, written comments concerning the summary report of historic resources should be submitted within 30 days to our office. If necessary, we will establish a meeting in which to discuss comments and/or issues regarding the management resource identification and evaluation. If there are any questions at this time, please contact Michael Hahn (302-760-2131) of my section.

Sincerely,

OFFICE OF DESIGN SUPPORT

Therese M. Fulmer
