

# Delaware Bicycle Facilities Master Plan

## Characteristics of Bicyclists

### Advanced

- Use bicycles as they would a motor vehicle
- Ride for convenience and speed
- Comfortable riding with motor vehicle traffic
- Need sufficient operating space on the traveled way

### Basic

- Less confident adult riders using their bicycles for transportation purposes
- Prefer to avoid roads with fast and busy motor vehicle traffic
- Comfortable riding on neighborhood streets and shared use paths

### Inexperienced (Children)

- Children riding on their own or with their parents
- Prefer residential streets with low vehicle speeds
- Need to be linked with shared use paths and busier streets with well-defined pavement markings
