

SR1, Little Heaven Grade Separated Intersection

Welcome

Welcome to the SR1, Little Heaven Grade Separated Intersection Preliminary Design Workshop. The goal of this project is to improve public safety by constructing a grade separated intersection in order to eliminate the at-grade intersections along SR1 in the vicinity of Little Heaven. Initially identified as part of the SR1 Corridor Capacity Preservation Program, the overall goal of this project is to enhance public safety and preserve capacity by reducing conflict between local and through traffic.

The information presented tonight follows the Department of Transportation's Mission Statement and is the result of on-going proactive initiatives by the Department to enhance safety along Delaware's roadways.

Please review the displays and talk with a project team member to discuss any questions you may have in regards to the proposed improvements. Thank you for your overall interest in the SR1, Little Heaven Grade Separated Intersection Project.
