The public workshops will present alternatives that are being considered for the SR 1 Widening Project. As part of the project, we are adding an additional travel lane in each direction. We are also proposing various modifications to the four interchanges at SR 273, US 40, Tybouts and SR 72.

The proposed widening and interchange work is needed to:

- address congestion
- improve safety at high crash locations
- improve system connectivity
- ensure emergency access and evacuation
- provide support and local access for existing and committed development in New Castle County
