

## SECTION 9

### UTILITIES

#### General

Prior to the installation of any utilities within the dedicated right-of-way of subdivision streets, the developer shall obtain a utility permit from the Division of Highways. Utilities within the dedicated right-of-way shall be installed in accordance with the Utilities Manual published by the Division of Highways.

#### Location

Requests for a utility permit shall be accompanied by plans showing the relationship of the utility with the proposed subdivision street and related drainage facilities. Where feasible underground utilities are to be placed in back of the proposed curb line. Utility conflicts with future subdivision street construction are to be corrected by the utility company or the developer at no expense to the State.

#### Permits

Requests for utility permits must be submitted with plans for the utility installation to the permit supervisor in the respective District.
