

# DelDOT – Development Coordination

## Email Blast

**Subject:**

DelDOT – Division of Economic Development Coordination

**Effective Date:**

November 17, 2025

**Announcement**

As economic development and government efficiency are two of Governor Meyer's key priorities, we are pleased to officially announce the creation of the **Division of Economic Development Coordination (EDC)** within the Delaware Department of Transportation (DelDOT)! This new Division will play an important role in strengthening collaboration between DelDOT, our economic development partners, and land use agencies. By enhancing coordination and streamlining processes, the Division will help ensure that our transportation investments effectively support Delaware's economic growth, business needs, and community development goals.

We are also proud to share that **Jeff Van Horn** will be the Director of the Division. Jeff brings nearly 20 years of extensive experience in development coordination, change management, and DelDOT operations, which will be instrumental in leading to better align transportation and economic priorities statewide.

Under his leadership, the Division will serve as a central point of contact for economic development-related transportation initiatives, working closely with internal DelDOT teams, state and local partners, and the business community to deliver projects that foster opportunity and long-term growth. The Division's work will help us continue to deliver safe, efficient, and strategic transportation solutions that support Delaware's long-term prosperity and quality of life. The existing Development Coordination Section within Planning will officially transition to the new Division on **November 17, 2025**.

We look forward to working with you!

Should you have any questions, please contact the Development Coordination Section at (302) 760-2266 or via email at [Subdivision@Delaware.gov](mailto:Subdivision@Delaware.gov).
