KENT COUNTY ROAD LOOKUP TABLE

How To Find a Roadway Section AADT Count:

The Kent, New Castle, and Sussex County portions of the Traffic Count summary list the roads numerically by Maintenance Road Number, but the roads are more commonly known by their name. The Road Name Lookup Table is used to help in locating traffic count road segments that you wish to view by name. This table includes the Road Name in alphabetical order, the Maintenance Road Number(s) that reference to the summaries, and the general Location of the roadway.

While some roads keep the same Maintenance Road Number for the entire length of the road name, some will have multiple Maintenance Road Numbers. For example, Bryants Corner Road in Kent County is made up of Maintenance Road Numbers K 205, K103, & K 219. As in this example, The Maintenance Road Numbers that comprise a continuous road may not necessarily be in sequential order.
