## ABSTRACT

The Phase I cultural resource survey of the Early Action Segment of the U.S. 13 Relief Route, which covers 17.0 miles of proposed right-of-way between Dover and Smyrna, Delaware, was conducted between May and December, 1987. A total of 55 prehistoric (dating from 6500 B.C. to A.D. 1600) and historic (dating from the 1770s to the 1940s) archaeological sites were recorded during the survey. Site location analysis confirms the predictive model used in earlier Route 13 studies.

## ACKNOWLEDGEMENTS

Appreciation for their support, administration, research, and services is extended to all of the following individuals:

From the Division of Highways: Raymond D. Richter, Jr., Assistant Director, Preconstruction; Joseph T. Wutka, Jr., Location Studies and Environmental Engineer; Kevin W. Cunningham, DelDOT Archaeologist; Carol L. Kates, Secretary; Joanna Likens, Project Scheduling and Support.

From the Federal Highway Administration: Charles J. Nemmers, Division Administrator; and Robert Wheeler, Field Operations Engineer. From the Bureau of Archaeology and Historic Preservation: Daniel R. Griffith, Bureau Chief; Faye L. Stocum, Archaeologist; and Alice H. Guerrant, Archaeologist.

From the University of Delaware: Juan Villamarin, Chairman, Department of Anthropology; Carolyn Fierro, Administrative Assistant; Joanne Edwards, Secretary, Department of Anthropology.

From Division of Graphics and Printing: Ray Moore, Shop Supervisor; John Bordley, Pressman; Bob Farley, Pressman; Jeff Faulkner, Pressman; Dorothy Hutchins, Machine Person; Joan Pillsbury, Bindary Clerk; Grace Steele, Graphics Specialist, and William Yerkes, Cameraman and Pressman.
