**To: Mr. Henry T. Price  
Chairman, State Highway Department**

**From: Mr. Ernest A. Davidson  
Director of Operations**

We are herewith submitting our Annual Report for the fiscal year 1965. True to earlier predictions, we find the volume of work to have been greater than any previous year. This is true not only in dollar value but also in the many activities involved in the planning, operation, and the administration of our highway system. With the continuing rapid development of our State and the greatly increased use of our highways, we can safely predict that this trend will continue.

I am pleased to offer this report of the Department's accomplishments and especially want to express my appreciation for the assistance and guidance of the Department Members and to the Department employees who made our accomplishments possible.

**To: His Excellency Charles L. Terry  
Governor of Delaware**

**From: Henry T. Price  
Chairman, State Highway Department**

We have reached the mid-point of the dynamic 60's — a decade that economists predicted would see more progress than any other period in our history.

The key to progress is man's interaction with man which presupposes, among other things, a sound network of transportation. Through the excellent cooperation of the State's administrative and legislative powers, we have continued to develop a highway program for which Delaware citizens can be justly proud. This annual report for the fiscal year 1965 describes the work accomplished.

We look forward with confidence in Delaware's ability to meet the challenge of the second half of this decade.

# DELAWARE STATE HIGHWAY COMMISSIONERS

**LEMUEL H. HICKMAN**  
Vice Chairman  
Frankford
