EXPERIENCE PROFILE

Robert Kingsley's principal area of concentration is the prehistoric archeology of the Eastern United States. His early experience involved excavations at Woodland and Historic Period sites in southern Michigan, and he went on to supervise or direct numerous survey and excavation projects for universities and consulting firms. His field experience ranges from the Plains and Midwest to the Northeast, and includes sites or materials from nearly all cultural/temporal periods. Examples include the supervision of intensive survey and excavation projects in Michigan and Iowa, and the direction of data recovery excavations at significant Archaic and Woodland Period sites in Pennsylvania, New Jersey, Rhode Island, and Massachusetts. Theoretical/analytical emphases include ceramic and lithic analysis, settlement system analysis, the analysis of social and political implications of mortuary practices, and an overall orientation toward the study of socio-political structures of prehistoric societies. He has authored numerous publications in scholarly journals, including several on the poorly-documented Hopewell societies of southern Michigan. As Project Manager/Senior Project Manager, Dr. Kingsley has held key administrative and management roles in both large- and small-scale archeological projects throughout the Mid-Atlantic and New England regions.

EXPERIENCE PROFILE

Dr. William J. Chadwick serves as a Principal Geoaarcheologist and Project Manager at JMA. He is a Registered Professional Archeologist and Licensed Professional Geologist who has broad experience in both geoaarcheology and archeology. Dr. Chadwick holds a Ph.D. in Geology from the University of Delaware where he gained extensive training in archeological geology, ground-penetrating radar (GPR), quaternary geology, sedimentology, stratigraphy, and geomorphology. He has conducted numerous geoaarcheological examinations of paleogeographies and paleoenvironments and several geophysical surveys related to archeological sites, and their environs, throughout the Mid-Atlantic and New England regions. He also utilizes GPS and GIS to map and conduct analysis of spatial attributes related to cultural resources. His experience in archeology includes all phases of excavation related to Prehistoric and Historic Period sites throughout the Mid-Atlantic and New England regions. Dr. Chadwick is author or co-author of numerous cultural resource and geoaarcheological reports, as well as several professional publications and presentations at professional meetings.

KEY PROJECTS

- 2004 GIS-based Existing Conditions and Sensitivity Analysis of Cultural Resources, Route 1 Beach Area Improvements, Sussex County, Delaware. Whitman, Requardt & Associates and Delaware State Department of Transportation
- 2004 Ground-Penetrating Radar Survey of Target Areas within US 422 / SR 23 Interchange Project Area, Valley Forge National Historical Park, Montgomery County, Pennsylvania. Pennsylvania Department of Transportation.
