1.0	INTRODUCTION.....1
1.1	Purpose and Goals of the Investigation.....1
1.2	Description of the Area of Potential Effects.....1
2.0	BACKGROUND RESEARCH.....3
2.1	Environmental Overview3
2.2	Prehistoric and Contact Period Overview5
2.2.1	Paleoindian Period.....5
2.2.2	Archaic Period.....6
2.2.3	Woodland I Period6
2.2.4	Woodland II Period7
2.2.5	Contact Period7
2.3	Historic Overview8
2.3.1	Exploration and Frontier Settlement (1630-1730)8
2.3.2	Intensified and Durable Occupation (1730-1770)11
2.3.3	Early Industrialization (1770-1830)14
2.3.4	Industrialization and Early Urbanization (1830-1880)15
2.3.5	Urbanization and Suburbanization (1880-1940+).....20
2.3.6	Suburbanization and Early Ex-urbanization (1940-1960+)21
2.3.7	Historic Context: Agriculture of Northern Delaware.....22
3.0	METHODS AND RESEARCH DESIGN.....25
3.1	Methods of Data Collection25
3.2	Research Design26
4.0	RESULTS27
4.1	Western Portion.....27
4.2	Central Portion31
4.3	Eastern Portion33
5.0	SUMMARY AND RECOMMENDATIONS36
5.1	Western Portion.....36
5.2	Central Portion37
5.3	Eastern Portion37

Appendix III:	Soil Descriptions: Wetland Mitigation Sites 1 and 7
Appendix IV:	Vitae of Principal Preparers
Appendix V:	Artifact Inventory

LIST OF FIGURES

- Figure 1. Detail of *Newark West, Md.-Del.-Pa.* (USGS 1992), *Newark East, Del.* (USGS 1993), and *Wilmington South, Del.-N.J.* (USGS 1987) 7.5-minute series quadrangles showing the western, central, and eastern portions of the archeological Area of Potential Effects for the proposed I-95/Delaware Turnpike project.
- Figure 2. Western portion of archeological Area of Potential Effects, showing archeological site locations.
- Figure 3. Western portion of archeological Area of Potential Effects, Segment A, showing areas of archeological testing and site locations.
- Figure 4. Western portion of archeological Area of Potential Effects, Segments B and C, showing areas of archeological testing and site locations.
- Figure 5. Central portion of archeological Area of Potential Effects, showing three areas of archeological testing.
- Figure 6. Central portion of archeological Area of Potential Effects, showing archeological testing at wooded area.
- Figure 7. Central portion of archeological Area of Potential Effects, showing archeological testing at the Lewis Welden property.
- Figure 8. Central portion of archeological Area of Potential Effects, showing archeological testing at Site N-9356.
- Figure 9. Eastern portion of archeological Area of Potential Effects, showing locations of proposed wetland mitigation Site 1 and Site 7.
- Figure 10. Detail of the *Roads of New Castle County* (Heald 1820), showing the approximate location of the archeological Area of Potential Effects for the proposed I-95/Delaware Turnpike project.
- Figure 11. Detail of the *Map of New Castle County, Delaware* (Rea and Price 1849), showing the approximate location of the archeological Area of Potential Effects for the proposed I-95/Delaware Turnpike project.
- Figure 12. Detail of the *Atlas of the State of Delaware* (Beers 1868), showing the approximate location of the western portion of the archeological Area of Potential Effects for the proposed I-95/Delaware Turnpike project.
- Figure 13. Detail of the *Atlas of the State of Delaware* (Beers 1868), showing the approximate location of the central and eastern portions of the archeological Area of Potential Effects for the proposed I-95/Delaware Turnpike project.

- Figure 14. Detail of the *Map of New Castle County, Delaware* (Hopkins 1881), showing the approximate location of the western portion of the archeological Area of Potential Effects for the proposed I-95/Delaware Turnpike project.
- Figure 15. Detail of the *Map of New Castle County, Delaware* (Hopkins 1881), showing the approximate location of the central portion of the archeological Area of Potential Effects for the proposed I-95/Delaware Turnpike project.
- Figure 16. Detail of the *Atlas of New Castle County, Delaware* (Baist 1893), showing the approximate location of the archeological Area of Potential Effects for the proposed I-95/Delaware Turnpike project.
- Figure 17. Representative shovel test unit profiles.
- Figure 18. Detail, 1997 aerial photograph of eastern portion of Area of Potential Effects, showing location of proposed mitigation Site 1 and Site 7 and geoarcheological assessment test locations.
- Figure 19. Detail, *General Map of the County over which the Chesapeake & Delaware canal is proposed to be carried* (Latrobe 1803), showing approximate locations of proposed mitigation Site 1 and Site 7.
- Figure 20. Detail, *Survey of Christiana River, Del. and its Tributaries White Clay Creek and Red Clay Creek* (Smith 1894-95), showing approximate locations of proposed mitigation Site 1 and Site 7.
- Figure 21. 1945 aerial photograph showing approximate locations of proposed mitigation Site 1 and Site 7.
- Figure 22. 1956 aerial photograph showing approximate locations of proposed mitigation Site 1 and Site 7.

LIST OF PLATES

- Plate 1. Existing toll plaza, view to east, showing disturbed landscape.
- Plate 2. Existing toll plaza, view to west, showing disturbed landscape.
- Plate 3. Area of Site 7NC-D-236, view to west, showing site conditions.
- Plate 4. Area of Site 7NC-D-236, view to west, showing access road and fiber optic line north of site area.
- Plate 5. Excavations in overgrown field in Segment A, view to east-northeast.
- Plate 6. View to east from Dixie Line Road, showing excavation of shovel tests (in rear background) in mowed field.
- Plate 7. Shovel test excavation at Welden Farm location, view to southwest; note extant silo.
- Plate 8. Shovel test excavation at Site 7NC-E-58 location, view to east.
- Plate 9. General view west from auger test A-2, showing present environs of proposed wetland mitigation Site 1.
- Plate 10. View northwest toward rusting tanks near the northern extent of proposed wetland mitigation Site 7.
- Plate 11. General view southwest along western edge of proposed wetland mitigation Site 7; note blocks of concrete at center of photograph.
