

**APPENDIX IV**  
**REPRESENTATIVE SOIL PROFILES FROM SUBSURFACE TESTING**

# 7NC-H-12 Blackbird Study Area

area 2, subarea 1, test unit 8

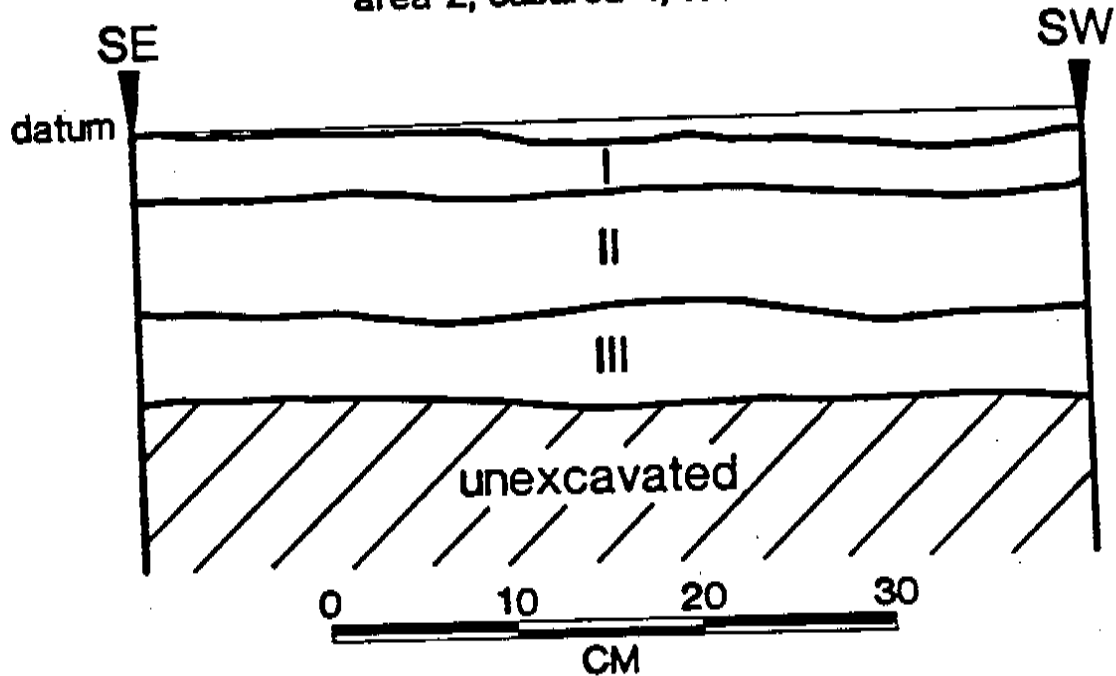

I-A horizon: gray silty loam; sterile

II-B horizon: light yellow silty loam; cultural  
1 jasper stemmed biface

# 7NC-11-20 Blackbird Study Area

area 2, subarea 4, test unit 1

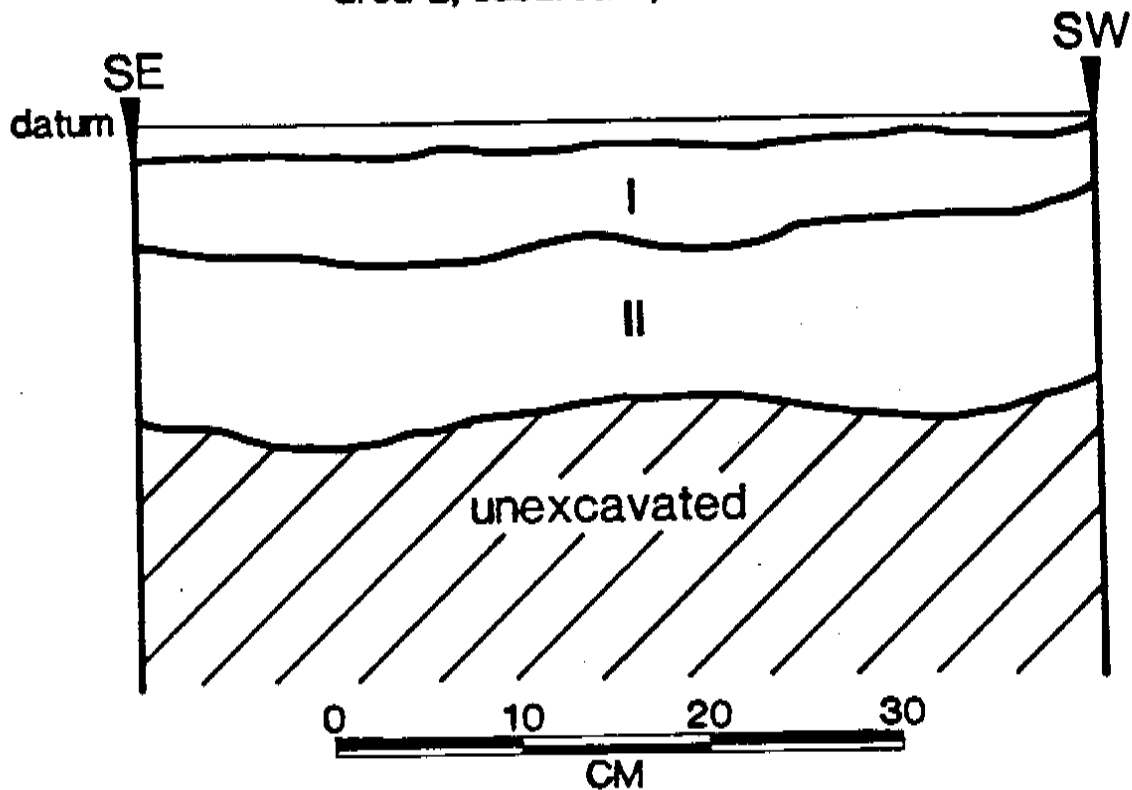

I-A horizon: gray-brown humus, root material; sterile

II-B<sub>1</sub> horizon: yellow-brown sandy loam; cultural flakes, FCR

III-B<sub>2</sub> horizon: orange-brown clayey loam; cultural 1 flake

# 7NC-J-23 Blackbird Study Area

area 2, subarea 2, test unit 2

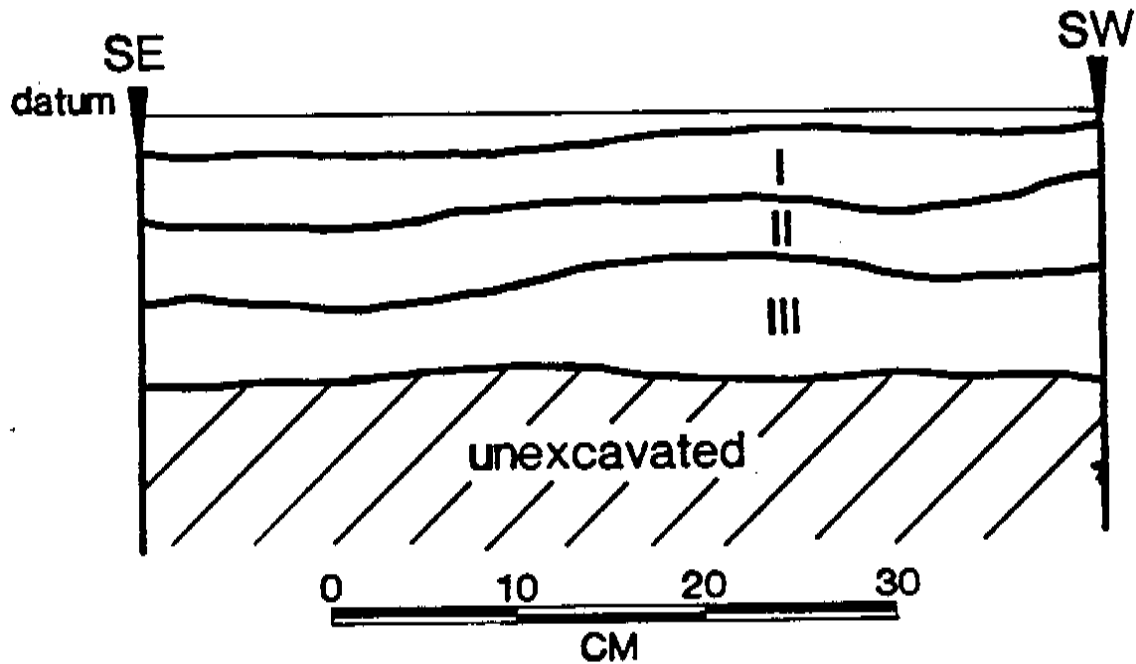

I-A horizon: gray-brown sandy loam; cultural glass and lithic debitage

II-B horizon: yellowish-tan sandy silt; sterile

# 7NC-33 Blackbird Study Area

area 2, subarea 6, test unit 3

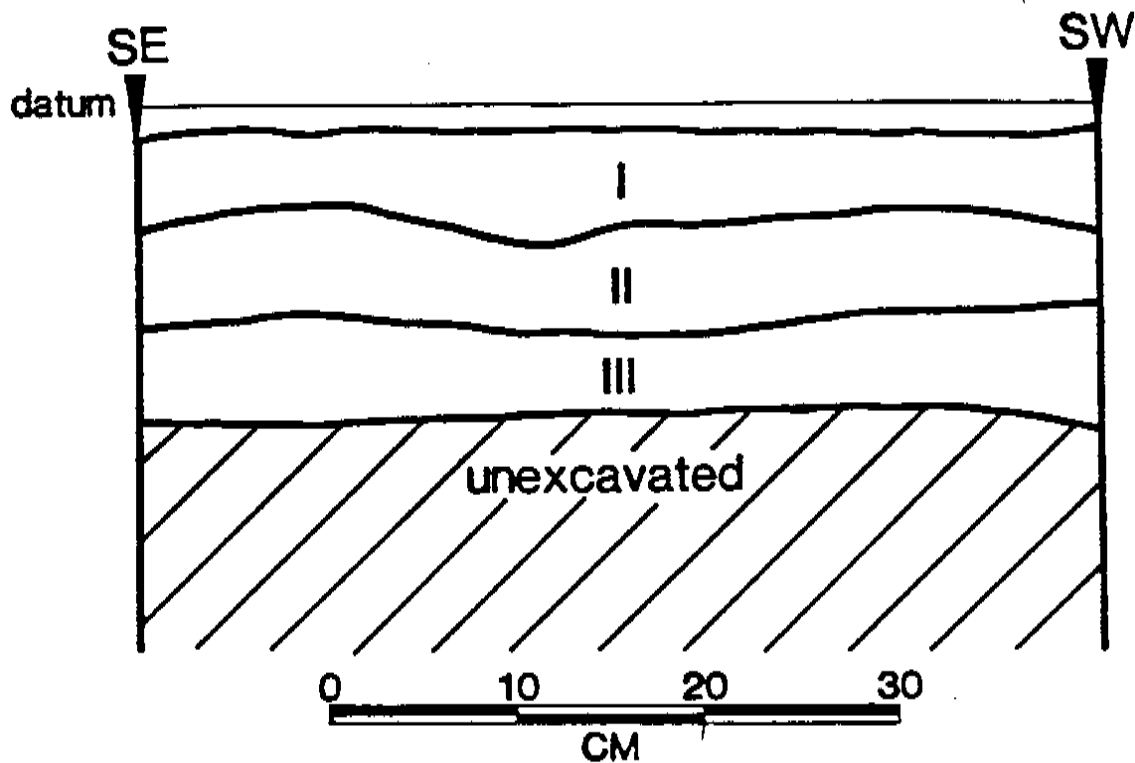

I-A horizon: dark gray-brown sandy loam; cultural  
2 flakes, FCR, glass and coal

II-B<sub>1</sub> horizon: yellow-brown sandy loam with pebbles and cobbles; cultural  
2 flakes, FCR, glass

III-B<sub>2</sub> horizon: orange-brown clayey loam with pebbles and cobbles; sterile

# 7NC-J-40 Blackbird Study Area

area 2, subarea 3, test unit 3

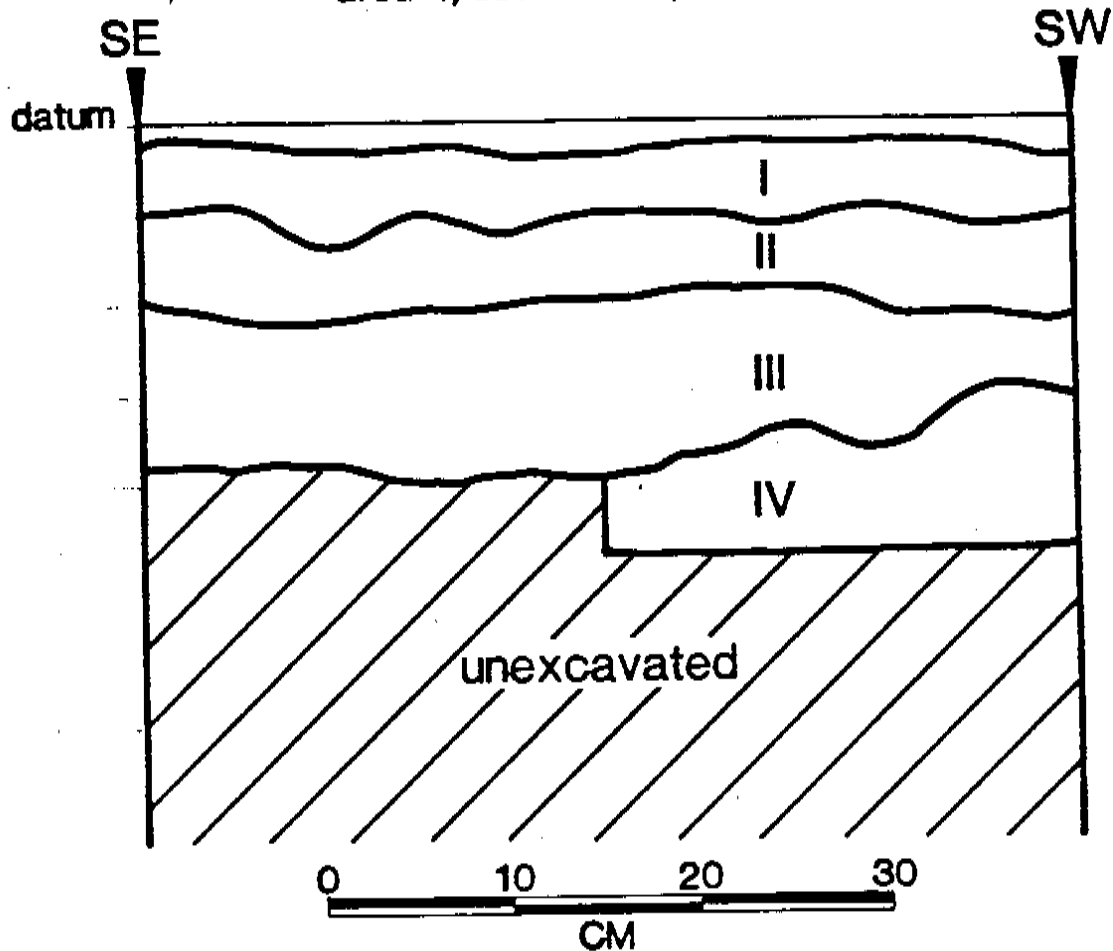

I-A horizon: gray-brown sandy loam with root material; cultural  
3 flakes

II-B<sub>1</sub> horizon: yellow-brown silty loam; cultural  
1 chert scraper, 2 chert flakes

III-B<sub>2</sub> horizon: orange clayey silt; sterile

# 7NC-G-59 Appoquinimink Study Area

area 1, subarea 11, test unit 1

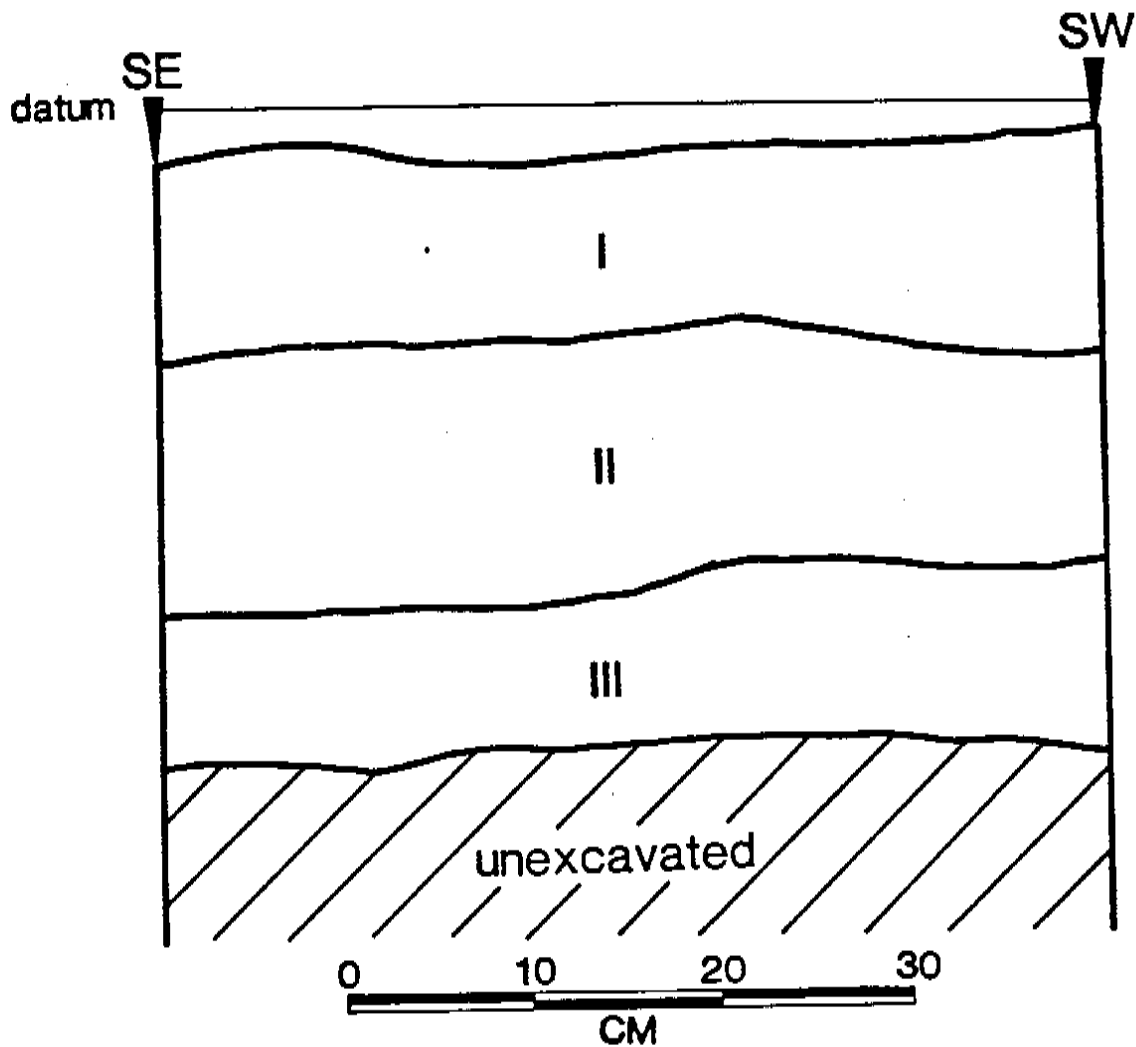

I & II-A horizon: gray-brown sandy loam with pebbles; cultural  
Minguannan sherd, flakes, FCR

III-B<sub>1</sub> horizon: yellow-brown coarse sandy loam with pebbles;  
cultural  
1 chert biface fragment, flakes, FCR

IV-B<sub>2</sub> horizon: orange-brown clayey loam; sterile

# 7NC-H-83 Blackbird Study Area

area 2, subarea 8, test unit 1

I-A horizon: plowzone; dark brown sandy loam with root material;  
cultural  
coal

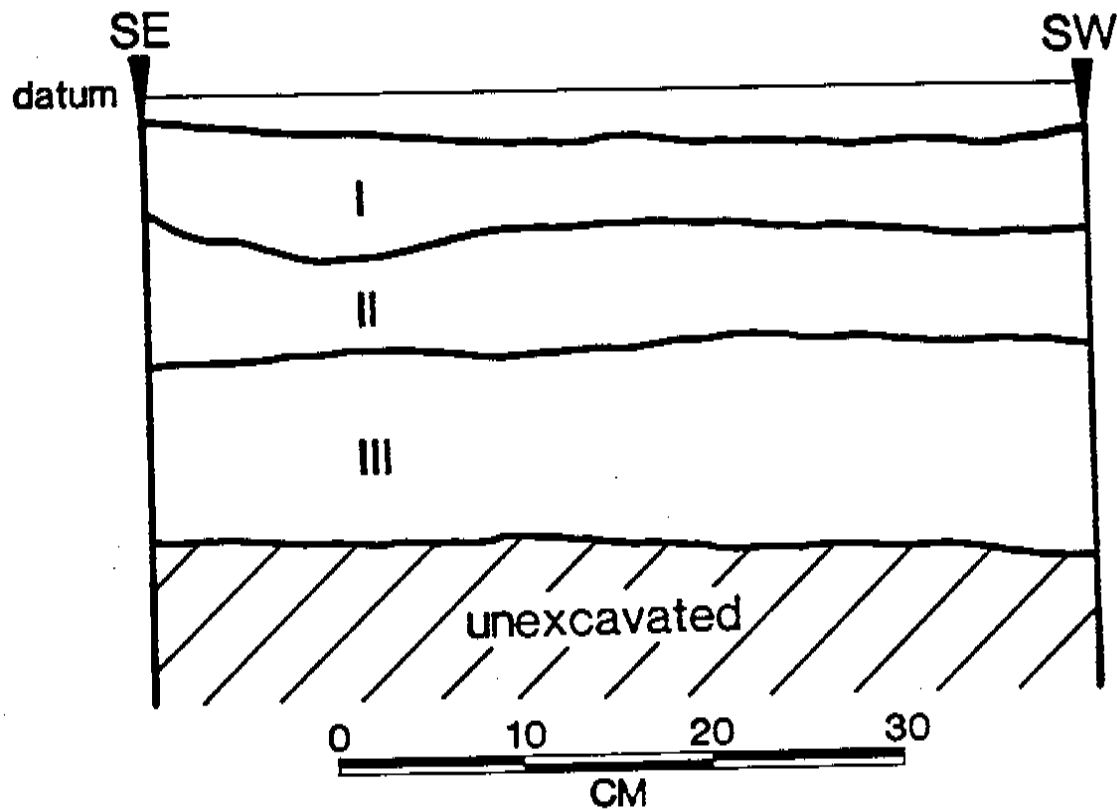

II-B<sub>1</sub> horizon: yellow-brown sandy loam; cultural  
2 jasper flakes

III-B<sub>2</sub> horizon: reddish brown clayey sand with FeO staining; cultural  
1 quartzite flake

# 7NC-J-113 Blackbird Study Area

area 2, subarea 14, test unit 2

I-A horizon: humus, gray-brown silty loam; cultural flakes, FCR, barbed wire

II-B<sub>1</sub> horizon: yellow-brown silty loam; cultural flakes, FCR

III-B<sub>2</sub> horizon: orange-brown clay loam grading into mottled yellow-orange clay; cultural flakes in upper part
