HEP, US 40 at Glasgow Avenue

Purpose/Need

2011 Hazard Elimination Program- Site V

Project Goals

Improve safety at the intersection:

-Protected only left-turn phasing is warranted due to the number of accidents in the area involving a left-turning vehicle.(previously installed during a Pave and Rehab project Summer 2013)

Improve intersection operations:

-Protected only left turn phasing along Glasgow Avenue adversly affects operations at the intersection.Widening Glasgow Avenue and restriping Eastbound US 40 for additional lanes will help to alleviate congestion.
