

## Delaware Department of Transportation Lore Ave at Philadelphia Pike and Marsh Road Closure Project

The Delaware Department of Transportation (DelDOT) is proposing the Lore Ave closure project at Philadelphia Pike and Marsh Road. The purpose of the project is to improve the quality of life for the community and the traveling public, improving traffic flow, providing safety, mobility at the intersection by reducing conflict points and vehicular delays, eliminating the sight distance restriction, and keep the residential character to Lore Ave. DelDOT is in favor of the roadway closure because of the elimination of the fifth leg at the intersection and other safety reasons. A distribution of this form is provided to residents most likely to be affected by the project. Please provide your input on the closure at the above-mentioned road. If this is something that you would like to see done, please indicate your support by circling "support". Similarly, if you are opposed to the closure project, please indicate your opposition by circling "oppose". When you have made your choice, please mail it to the indicated location. Upon receipt of the form at this office, they will be counted and tabulated. If support is obtained, the project will be submitted for construction. Please mail back the form individually. Forms collected and mailed back in bulk are vulnerable to tampering. As it is important to get honest replies in order to determine the true interest of the residents, forms returned that way will not be accepted.

If you have any questions, contact Ahmed M. Abdelmoteleb, Traffic Engineer at DelDOT. He may be reached at (302) 659-4096, or at [Ahmed.Abdelmoteleb@state.de.us](mailto:Ahmed.Abdelmoteleb@state.de.us). There is also a Project website for the proposal located at [https://www.deldot.gov/information/projects/LoreAve\\_Closure/](https://www.deldot.gov/information/projects/LoreAve_Closure/) in case you have additional questions. It is recommended that the forms be mailed by November 10, 2017. Forms received after November 10, 2017 will not be considered in the final tabulation.
