

SR 24 Projects

SR 24 Widening Phase 1 - Mulberry Knoll to SR 1

**Schedule Dates shown below are tentative and subject to change

Scope of Work:

This project will involve roadway widening to facilitate the continuation of the existing four lane section with center turn lane from SR1 to just west of Plantation Road. The improvements will then reduce back to the existing roadway section until the Phase 2 Widening project begins.

The project will also provide intersection improvements at SR24 and Plantation Road by adding a thru/left turn lane in both directions of Plantation Road.

Stormwater management and multi-modal facilities will be installed throughout the project limits.

Project Time Line:

Design to be completed Fall 2018.
Construction to start Winter 2019.

SR 24 Widening Phase 2 - Love Creek to Mulberry Knoll

Scope of Work:

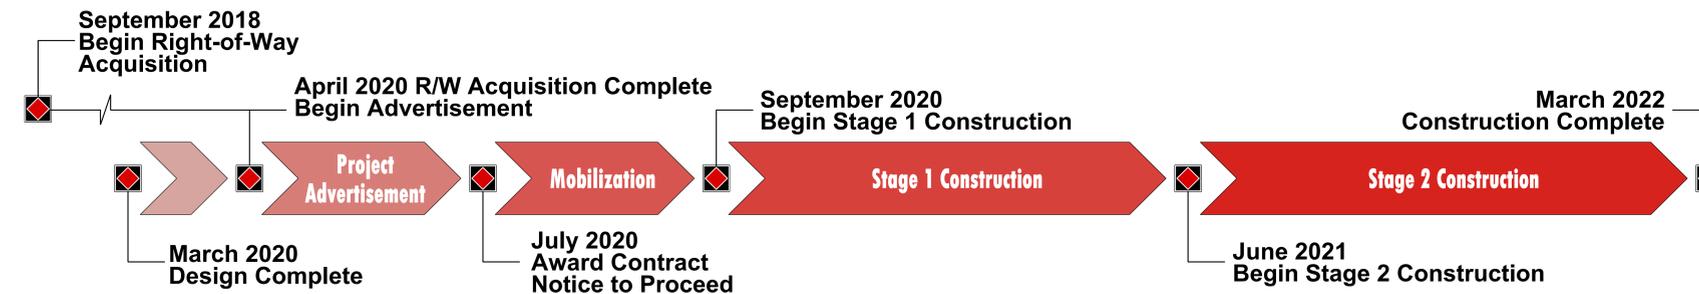

This project will involve roadway widening to facilitate the continuation of the newly constructed four lane section with center turn lane from west of Plantation Road to the Saddle Ridge Development. The improvements will then reduce to a center left turn lane and one lane in each direction from Saddle Ridge to the Love Creek bridge where the roadway typical will match the existing two-lane section.

The intersection of SR24 and Mulberry Knoll Road is planned to be signalized and the project will include improvements to the intersection approaches of Mulberry Knoll Road.

Stormwater management and multi-modal facilities will be installed throughout the project limits.

Project Time Line:

Design to be completed Winter 2019.
Construction to start Summer 2020.

SR 24 Intersection Improvements - Camp Arrowhead Rd & Robinsonville Rd/Angola Rd

Scope of Work:

This project will involve roadway widening at the intersections of SR24 with Camp Arrowhead Rd and Robinsonville Rd / Angola Rd to facilitate installation and/or extension of turning lanes.

This will enable the necessary storage for vehicles in the queue at the signals and provide bike lanes.

Stormwater management and multi-modal facilities will be installed throughout the project limits.

Project Time Line:

Design to be completed Summer 2020.
Construction to start Spring 2021.
