Subject: Workshop 8/17 in Lewes

Date: Fri, Aug 4, 2017 7:37 am

Dear DeIDot,

Looking forward to your workshop here in Lewes. I have a few comments on the bike trail extension going towards Georgetown.

You have to think BIG! We have almost monthly accidents at the two crossovers at the Route 1 overpass at Nassau Road.

So:

Shut down the two crossovers.

Build a new exit ramp from southbound Rt. 1, using the existing right-of-way, down to the abandoned tracks. This new ramp would be a single lane with a shoulder, ending at a stop sign at the soon to be gone tracks.

Under the bridge build a new 2 lane road with bike trail to connect to Nassau Road (with a stop sign) and the bike trail extension near the bakery.

Opposite the new exit ramp extend the existing two lane Janice Road a very short distance to the old tracks (with a stop sign) to provide a cross under for the many local senior drivers who can then get to Route 1 northbound without using the deadly crossovers.

If you look at a map what I am proposing is basically creating another Nassau Road on the south side of the bridge with a new connection under it using the abandoned right of way space.

I will be at the workshop with marked up roadway plans to show you my ideas.

Like I said, think BIG,
Joe Hoechner

Delaware has great trails such as Cape Henlopen and Breakwater as well as White Clay Creek.

I like connections so the places I can ride to more locations. Right now it feels like just pockets of rider-friendly biking areas.

I suggest having an art and painting project for the bridge columns.
Bright and colorful.

Great, get it done!

Address: 31452 Vivid View Dr., Lewes, DE-19958
Email: ctanverdi@gmail.com
Telephone: 302-593-9080

As a retiree of 6 years in Sussex County, I enjoy many amenities in our area and bicycle frequently for both my health and transportation. While I welcomed the Phase I that will finally allow us to cross Rt 1 without danger, I am very disappointed that it will stop at Mimos Conaway.

Our development Red Mill Pond has a total of 520 homes (260 occupied at present). Southeastern corner of our development is not even $(\frac{1}{2})$ half a mile from Mimos Conaway. By extending Phase Two another $\frac{1}{2}$ (half) mile, we can access the trail without going on Route 9.

If there is a way to extend the plan by stretching the dollars, this would be the best thing that can happen to many of us who enjoy our beautiful trails without the dangers we face on Rt. 9.

We do not want the tree line removed along the side of our property.

We paid a premium to our builder -
Khanovian to have ~~trees~~ trees be along
the tree line.

also, recommend that a stockade or
other attractive fencing be added
along the railroad to prevent pedestrians
& bikers from cutting thru our property
& community.

DO NOT REMOVE ANY TREES
OR SHRUBS + ~~just~~

I see you plan to spend a lot of \$, Building Curb/concrete Sidewalk. We Need a Safe Bike Path!

Perhaps just a Black Top path 2/walk on would do.

I Really Like the plan out of town, West - To G.town. When Will that Be Done?

I currently use the path under the Nassau Bridge 2/cross Rt. 1 safely. But Getting Across Rt. 9 onto Nassau Vineyard Rd. is Dangerous!

Thank You!

We back up to the proposed rail trail and can't
wait to see it completed. The plans look excellent
and using the actual rail bed makes great sense.

The large poster pictures were very helpful and
staff answered questions thoroughly.

Leaving as much of the greenery on both sides will
be a wonderful benefit for trail users. Glad to
know that is a priority as well.

Telephone: 571-215-0822

Thanks for all the great work so far on the G-T trail!!

Please include the stretch from Mines Conaway Rd to Sweetbriar Rd in Phase 2.

It will dramatically increase access for

- a large population of cyclists + walkers in Red Mill Pond, Milton, and other points west of Mines Conaway
- cyclists on the American Discovery Trail

This short (4,000 ft) stretch would obviate the need for cyclists and walkers to ride/walk on the shoulder of Rt 9/404.

For a small incremental investment, you would get a huge increase in the benefits of Phase 2!!

It would demonstrate significant progress toward getting the trail completed.

Thanks for your consideration.

Telephone: _____

Savannah Rd. is unsafe for bicyclists in the current state. The proposed improvements would protect bicyclist rights of the road & improve safety.

The current path "dead-ends" behind the library on Swannick Rd. Those unfamiliar with the map find themselves confused & often choose to continue travel toward to Savannah where the shoulder disappears.

I am a bicyclist. My husband & I were involved in a serious car/bicyclist accident that included one fatality. (Not my husband, thank God).

We are serious proponents of safe cycling & welcome the new plans for the Georgetown to Lewes Pathway & improvements to Swannick Rd.

- I am very excited about the trail extension.

There are a lot of bike riders in the area
and one of the best things about living
here are the bike trails -

- Sides look steep on one part of trail -
suggest railing or fence eventually.

- I can't wait for it to open!

LEWIS - (G-TOWN TRAIL -

CURRENT Phase (Funded) ends at Muros - Conway Road -
which dumps you out in the middle of no-where → RT 1
in one direction, Rt 9 the other -

For a small addition of 1/4 mile, trail phase should
run to Sweet Brian Road - which at least gives a
destination of Hopkins Dairy at the intersection w/ Rt. 9 -
or over to Hudson Road and elsewhere on the way to
Cane Neck & Hudson.

Thank you!

~~As~~ As a resident of Nassau Grove, I am concerned about trail access from our community (location, expense, ~~the~~ security, traffic etc).

Might suggest that access from Minors Conley + RT 1 be improved such that access to trail occur there.

I think there would be major contention with our community with regard to this project for these reasons with regard to the points of access.

There also needs to be consideration for a fence along our gated community.

AS AN AVID BIKER (ZOMI/DAY) I'M LOOKING FORWARD TO THE LEWES-GEORGETOWN TRAIL.

FROM MY HOME NEAR SWEETBRAR RD GOING TO LEWES AND CROSSING ROUTE I CAN BE ~~HAZARDOUS~~ HAZARDOUS.

I OFTEN BIKE TO LEWES AND THE JUNCTION AND BREAKWATER TRAIL. COMPLETING THE TRAIL TO MINDS GUNAWAY WILL BE GREAT BUT GOING TO SWEETBRAR WILL OPEN THE TRAIL TO MANY MORE PEOPLE

THANKS FOR ALL YOUR WORK ON THIS GREAT PROJECT. THE LEWES-GEORGETOWN RAILS-TO-TRAILS WILL BE WELL USED AND A GREAT ADDITION TO ALL THAT DELAWARE AND SUSSEX COUNTY HAS TO OFFER

CHEERS, DENNIS

Address: 31937 Carners Ave Lewes DE 19958
Email: BNAS4NOW@gmail.com
Telephone: (410) 490-6276

Why was there no public presentation given? Why was there no open session for questions other than persons' ^{individual} questions to a DELDOT representative? Why no open public presentation to the entire audience?

When the trail is installed will any trees/bushes be removed?

Will any fence be installed? Where will access roads be installed?

I believe a permanent like access path should be installed along RT 1 and under the Nantux loop to replace the temporary path that is currently used for safety purposes when attempting to get from the west side of RT 1 to the east side.

vgritmon@gmail.com

Telephone:

518-221-3538

My husband and I built a home in the VOFPEast and moved in this past May. We were aware the railroad tracks back up to the common are adjacent to our property. We were very happy to hear that these tracks were recently de-commissioned. I look forward to having a bike path in that area. It not only improve the beauty of that area but would also provide us easy access to ride our bikes.

My one concern is the general public veering off the bike trail and intruding on private property. Are there any provisions to help deter this from happening?

Thank you for your well thought out proposal/design.

MY COMMENT IS IN REGARDS TO THE SMALL STOP SIGNS
INSTALLED ON THE TRAILS WHERE THE TRAILS INTERSECT WITH
ROADWAYS.

SOME OF THESE INTERSECTIONS ALSO HAVE STOP SIGNS FOR
VEHICLES (CARS TRUCKS ETC). SOME DO NOT. I BELIEVE THIS IS A
SOURCE OF CONFUSION FOR BOTH MOTORISTS AND PEOPLE USING
THE TRAILS.

AS A CYCLIST, I THINK THE SMALL STOP SIGNS ARE NOT
APPROPRIATE OR REASONABLE. I THINK A YIELD SIGN AND
CAUTION SIGNS ARE MORE APPROPRIATE.

Hi,

There is currently a "goat path" in the grass alongside Rte 1 South between Minors Conway Road and the Nassau Bridge. Parts of it are rough. Could DELDOT PLEASE improve that path now to make it smoother for bike riding? It's the only safe way to cross Route 1. If it could be done as soon as possible it would be much appreciated.

I'm so looking forward to this bike path!

Thank You

LOOKS GOOD! ANXIOUS TO SEE WHOLE TRAIL
DONE - RIPPING OUT RAILS AND REPLACING WITH
ASPHALT SO MUCH BETTER THAN CURRENT SOLUTION
FROM GILLS NECK TO SAVANNAH - AND LIKELY
LESS EXPENSIVE

PLEASE RETURN TO:

GREAT IDEA. WE PURCHASED OUR HOME IN NASSAU GROVE IN APRIL. MY WIFE AND I ARE BOTH ACTIVE BICYCLISTS AND THE CONSTRUCTION OF THIS BIKE PATH WAS A LARGE PART OF OUR DECISION TO BUY WHERE WE DID. WE ARE LOOKING FORWARD TO MANY YEARS OF USING THIS PATHWAY

PLEASE CONSIDER EXTENDING THE SAVANNAH RD. SIDEWALK & BIKE/PEDESTRIAN IMPROVEMENTS FROM WES COATS ROAD DOWN TO THE GEORGETOWN / LEWES TRAIL. WHY START AT QUAKER ROAD. THE WES COATS TO QUAKER ROAD AREA IS JUST AS PROBLEMATIC FOR PEDESTRIANS / BIKERS. PLEASE INCLUDE THIS AREA FOR THE SAME SAFETY + MOBILITY / ACCESSIBILITY ISSUES.

Thank you
RV

COMMENT FORM

Name: Jan McMahon
Address: 122 Madison Ave
Email: mcraab@comcast.net
Telephone: _____

- 1) Why is sidewalk only going in on one side of Savannah Rd?
- 2) Need organizations to sponsor portions of trail to provide dog waste bags or at least trash recepticals. The current Phase I path is littered with dog waste.
- 3) Need for parking at end of Phase II bike path
- 4) Don't know who is responsible for Phase I but I've seen 2 bikers not trying to cross at Monroe and Freeman Highways. Folks don't and won't go around to get back to parking.

1.) IT'S ALL FOR SIDEWALKS, I WOULD PREFER IF THEY
WENT ALL THE WAY TO WESCOATS ROAD TO CONNECT
TO 5 POINTS.

2.) HOWEVER, I THINK FIRE HYDRANTS SHOULD BE
A BIGGER PRIORITY.

COMMENT FORM

Name: Michael Goetz

Address: 17 Sussex Dr

Email: info@westechtrading.com

Telephone: 302-530-4634

I saw little progress on Phase II of the bike path since most of the displays were either mere satellite images of the proposed path or were pedestrian improvements to Savannah Rd. Hopefully there is more ~~water~~ going on behind the scenes.

I bike extensively on both the Junction Breakwater and Gordon's Pond trail - they are not only fantastic alternatives to Rt 1 gridlock, but provide a good avenue for exercise and stress relief.

There has been extensive building in eastern Sussex that has reduced opportunities for outdoor recreation and has made biking on roads hazardous. The Phase II will restore many of those lost opportunities, enable a safe auto-alternative route to Village of Five Points and the City of Lewes.

It will be incumbent to present the health and travel benefits to skeptical neighbors on the bike path as there likely will be some opposition. Please consider making available some kind of buffer to those close to the trail.
