Capital Transportation Program (CTP)

DeIDOT's Capital Transportation Program is the capital spending plan for the next six years. The plan for Fiscal Year's '05 to '10 will be adopted this Summer. This program supports the Governor's Livable Delaware initiative and fulfills DeIDOT's mission:

To provide a safe, efficient and environmentally sensitive transportation network that offers a variety of convenient and cost-effective choices for the movement of people and goods.

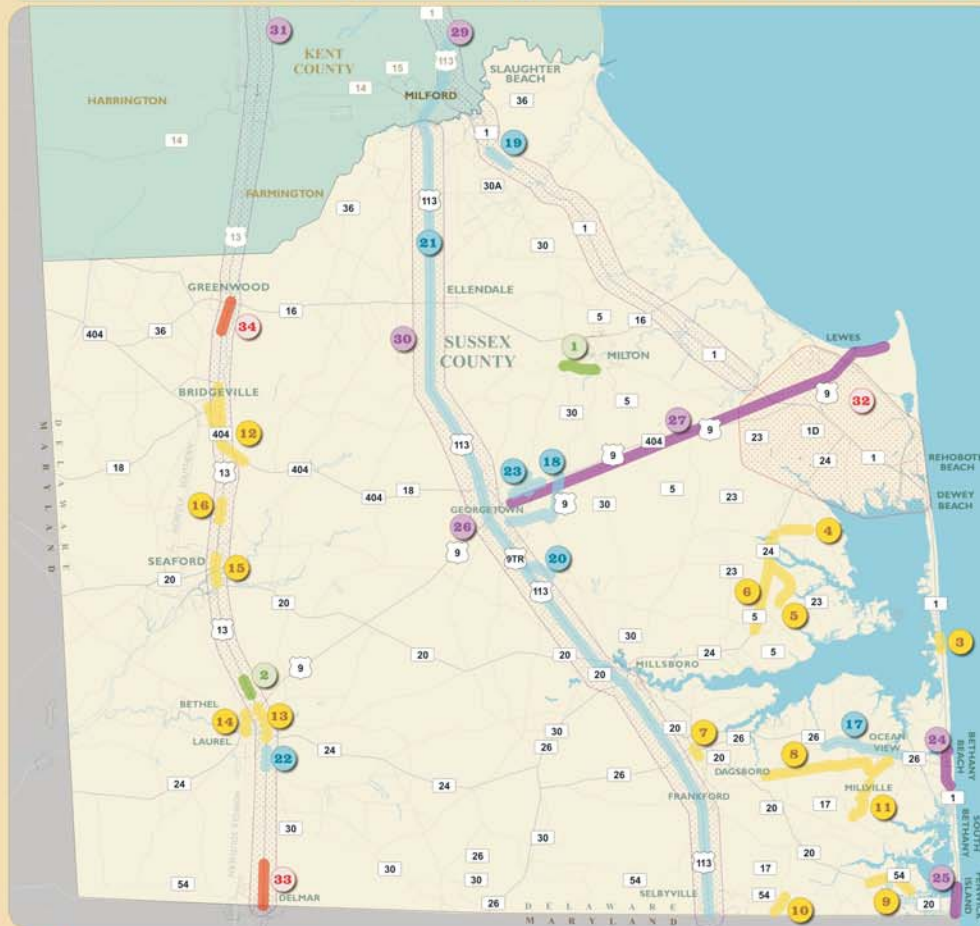

The program is grouped into four major funding categories:

- Road System** (improvements to the state's roads and bridges)
- Grants and Allocations** (includes *Municipal Street Aid Fund* allocated to all 57 municipalities in the state for a variety of maintenance work and the *Community Transportation Fund* allocated by legislators for various projects in their districts)
- Transit System** (investments in transit services including buses, rail rolling stock, maintenance and other facilities, transit shelters and other assets supporting all modes of operation)
- Support Systems** (all other investments in the transportation network including facilities, equipment, information systems, etc.).

The Fiscal Year '04 -'09 CTP includes over \$376 Million for Southern Kent and Sussex Counties.
