GENERAL QUESTIONS AND ANSWERS (NOT FOR BIDDING)**

NO.	DATE	DOCUMENT	SHEET #	QUESTION	ANSWER
1	8/28/2015	General	N/A	Do I have to establish an office in Delaware if I am an out of state contractor that gets the job? The requirements for a business license seem to require this.	This requirement (in Section 3.1 of the Rules & Regulations Relating to Delaware Apprenticeship and Training Law – under “Registrant or Sponsor”) is legally non-enforceable as a result of the decision in Tri-M Group, LLC v. Sharp, 638 F.3d 406 (3rd Cir. 2011). A proposed amendment to this regulation has been drafted in response to the Court’s decision and will soon be promulgated. A Delaware Business License is not needed as part of the pre-qualification to bid. A Delaware Business License will be required as part of the contract award and execution process.
2	8/28/2015	General	N/A	Can an estimated range of the cost of the construction contracts be provided?	DelDOT will not release the cost estimates of the individual contracts at this time.
3	8/28/2015	General	N/A	If US-301 is to be accessible to vehicles without E-ZPass, then the use of sign M4-20 in the signing plans found on the Contractor Information page of the project’s Website does not match the direction as outlined in the FHWA’s Manual of Uniform Traffic Control Devices (MUTCD), page 244, paragraph 11.	The word "ONLY" will be removed from the M4-20 signs.
4	8/28/2015	General	N/A	Can the sign-in sheet from the August 24, 2015 Contractor Information Meeting be provided?	Names and firm affiliations of those who signed in will be included when the transcript of the meeting is posted on the US 301 website.
5	8/28/2015	General	N/A	Would you consider an alternate pile type where appropriate, vs the h or pipe piles?	Bid proposals must be submitted based on the information in the Contract Documents. Changes to the Contract Documents after execution of the contract may be requested by the Contractor in accordance with information in DelDOT’s August 2001 Standard Specifications and all Supplemental Specifications thereto. Specifically refer to Section 104.12 Value Engineering and Section 105.04 Plans and Working Drawings.
