About this Study

The Five Points Transportation Study (the Study) is a joint effort developed by DelDOT and Sussex County to examine potential improvements to the area around the intersection located at Routes 1 and 9 near Lewes also known as Five Points. Based on transportation issues in this area, the Study seeks to reduce congestion and improve capacity on Route 1.

The study began with Phase 1, Five Points Working Group, which was composed of elected officials, DelDOT and Sussex County representatives, as well as local residents and businesspeople. The Study has moved into Phase 2 – Implementation which involves the development and execution of studies, projects and plans based on the Working Group's 78 recommendations .

Phase I was completed in the fall of 2018 and Phase 2 began in spring 2019 to further the **Implementation Plan** with Working Group support and involvement.

Five Points Transportation Study Virtual Open House

The Delaware Department of Transportation (DelDOT) invites you to participate in a virtual open house for the ongoing Five Points Transportation Study. The goal of the virtual open house will be to review study progress from 2019 and provide an overview of new study initiatives for 2020.

Progress in 2019

16

Status of recommendations at the end of 2019

COMPLETE OR ONGOING

IN PROGRESS

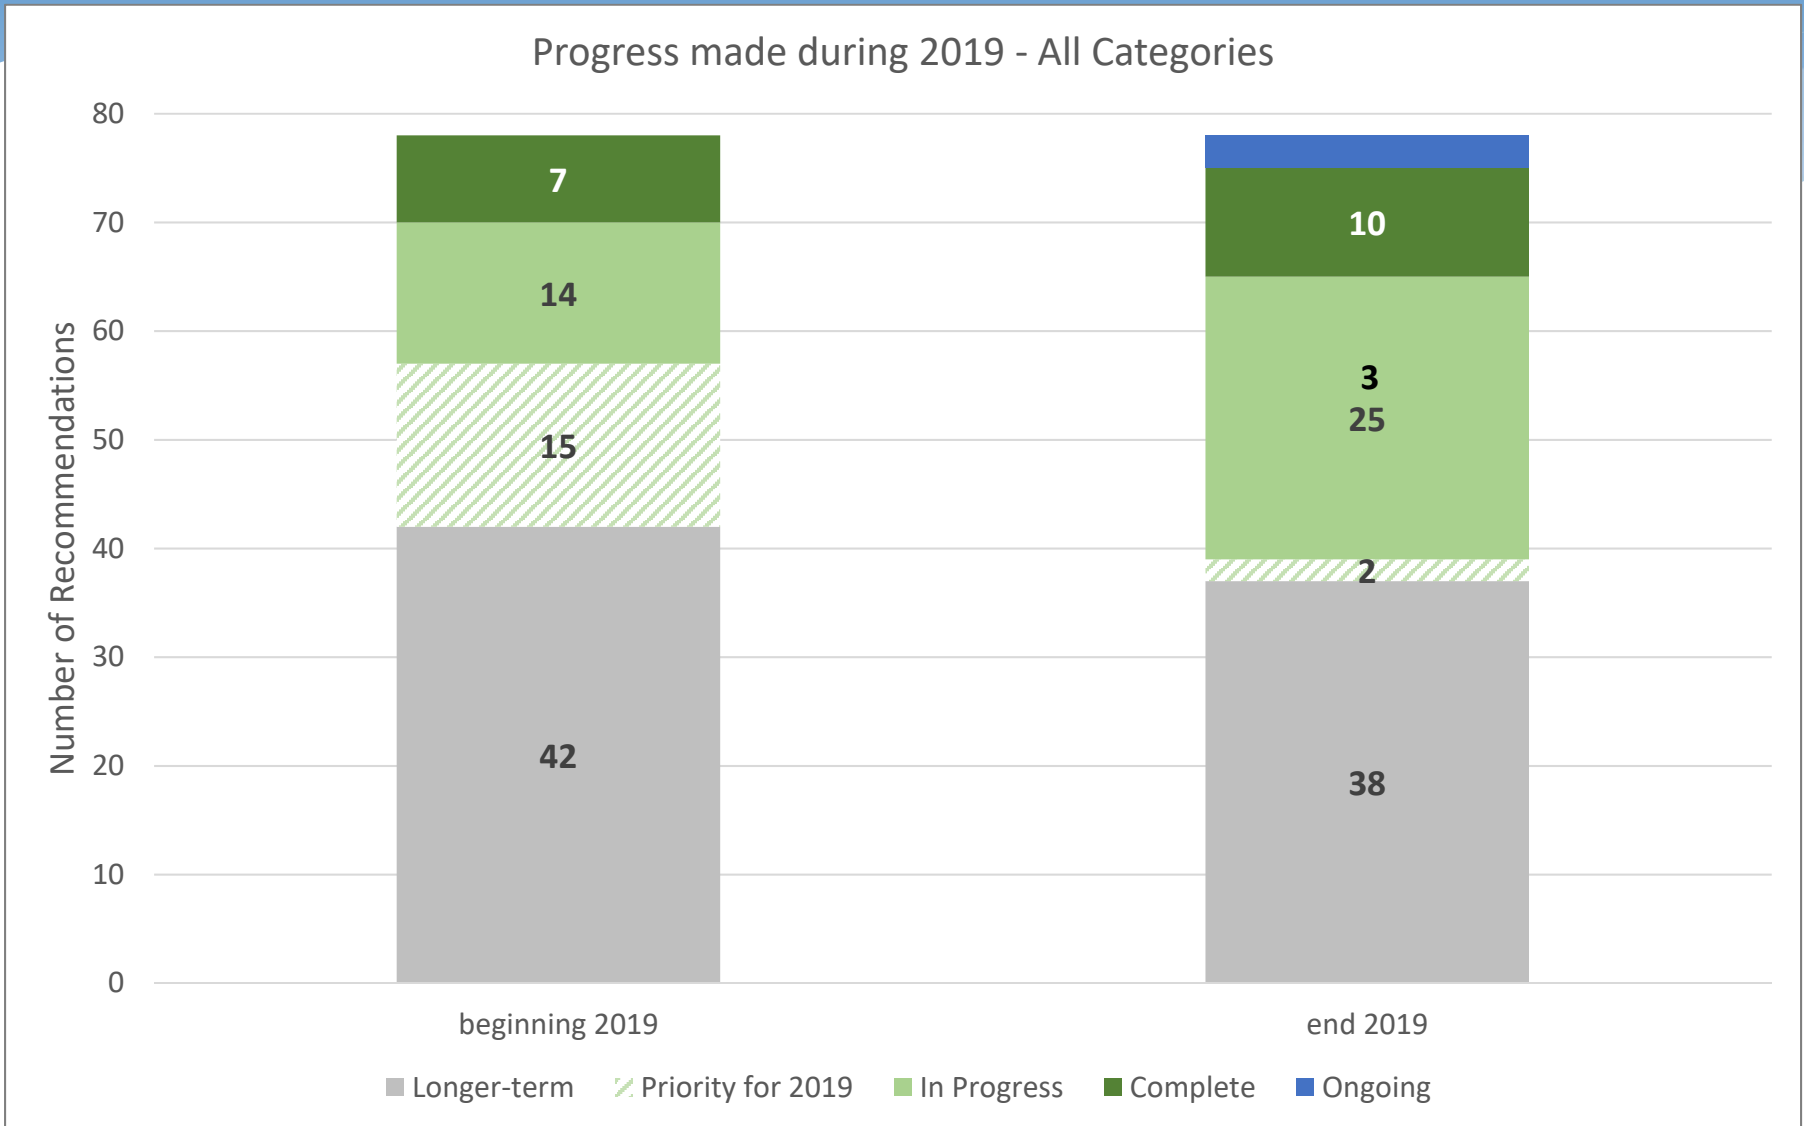

NOT YET STARTED

Progress in 2019

17

- **Continue work on 24 recommendations that are currently in progress**
- **Continue to work with Sussex County on the Henlopen Transportation Improvement District (TID)**
- **Continue to work with developers on transportation improvements related to their developments**

- **Begin work on five recommendations before the end of the year**
 - B-8: Study the feasibility of a parking management system to alert travelers when parking lots at major destinations are full
 - B-25: Identify the costs and benefits of dedicating Nassau Commons Boulevard to public use
 - C-6: Study the feasibility of lengthening left- and right-turn lanes throughout the study area
 - C-12: Study access management opportunities along Route 1 in the study area, including potential connections between businesses
 - D-9: Identify potential connections to and from the Lewes Transit Center

- **We're pleased to address your questions regarding the Five Points Transportation Study! The following team members will respond to questions you type in the Q&A box at the bottom right of your screen:**
 - Shanté Hastings, Chief Engineer, DelDOT
 - Marc Coté, Director of Planning, DelDOT
 - Josh Thomas, Planning Supervisor, DelDOT
 - Jamie Whitehouse, Director of Planning and Zoning, Sussex County

Thank you for your participation!
