

Wilmington Transit Corridors Improvement

Project Location

Project is located in the Wilmington Central Business District

Orange Street, King Street, 8th Street and 9th Street will be primary corridors for transit improvements.

<https://de.gov/wilmtransitcorridors>

Project Purpose

Provide curb "Bump Outs" to allow better bus onboarding

Reduces boarding and unloading times

Install Real Time Signs at bus shelters to provide updated bus schedule information

Newly Designed Bus Shelters provide better pedestrian accessibility while still protecting users from the weather

Reconfigure Orange Street with paving between Martin Luther King Blvd and 10th Street

DART service changes on 8th, 9th, and Orange Streets

Project Timeline

Design
Spring 2021 to Fall 2021

Winter 2021-2022

Construction
Spring 2022 to Fall 2022

Orange Street Reconfiguration

From Martin Luther King to 4th Street, parking shifted to the east side of the road while maintaining two (2) travel lanes

From 5th Street to 9th Street, parking on both sides of the road, with one travel lane.

Orange Street between 7th and 8th Streets with proposed improvements
